### 4<sup>th</sup> Grade Curriculum Map: Literacy & Integrated Content 2019-2020

#### Module 1 Summary

The heart: a literal muscle that sustains human life and a figurative center of emotion, love, and desire. In Grade 4 Module 1, *A Great Heart*, students explore, challenge, and explain these various meanings of the word *heart*. The literal and figurative uses of *heart* are presented through quotations from individuals as diverse as Confucius, Bill Nye (“The Science Guy”), and Helen Keller. To build deeper understanding of the people behind these quotations about heart, students study biographies of Clara Barton, Helen Keller, and Anne Frank. These biographies help students see how the thoughts and actions of people demonstrate great compassion and courage, thus exemplifying a figurative *great heart*.

Next, students explore the systemic, pulmonary, and coronary circuits of the literal heart through Mary K. Corcoran’s witty and engaging *The Circulatory Story*. In that text, readers follow a red blood cell on its journey through the body, and, in the process, learn how the body combats disease, performs gas exchanges, and fights plaque in the arteries. This text delves deeply into the literal meaning of a *great heart*—a heart that is strong and healthy. Although the text is complex because of the heavy use of scientific terms and concepts, the author weaves in figurative language to make these concepts more understandable for Grade 4 students. The dual study of the science of a great heart and the effect of figurative language in aiding comprehension provides an opportunity for knowledge building in both subjects.

Students then explore the figurative meaning of *heart* in *Love That Dog*, Sharon Creech’s poignant story of a boy who finds his voice by examining his broken heart and his great change of heart. *Love That Dog* is written as a series of free-verse poems from the main character’s point of view, and students will also read and analyze the classic poetry referenced in this text. Again, this text provides an opportunity for students to study the text at two levels of depth as they develop both the skill of reading and writing poetry, and the ability to infer deeper meaning from the words of the poems. Students learn how carefully chosen words and phrases can communicate powerful emotions and affect the reader.

Students conclude this module by reading “*Heart to Heart*,” a beautiful poem by Rita Dove. This poem provides students with an opportunity to examine the differences between the literal heart and a figurative great heart, and the way in which figurative language provides a powerful vehicle through which these concepts are communicated. Taken together, these rich and varied texts allow students to become adept at distinguishing between the literal and the figurative. In the End-of-Module (EOM) Task, students write an informative essay in which they explain what it means to have a great heart, both literally and figuratively.

**TRANSFER GOALS**  
**MODULE 1**

Transfer Goals highlight the effective use of understanding, knowledge, and skill that we want students to be able to do when they confront new challenges. It is the ability to transfer learning independently in not just one setting but varied real-world situations.

<b>KNOWLEDGE</b> Students will be able to independently transfer their learning:	<b>READING</b> Students will be able to independently transfer their learning:	<b>WRITING</b> Students will be able to independently transfer their learning:	<b>SPEAKING/LISTENING</b> Students will be able to independently transfer their learning:	<b>LANGUAGE</b> Students will be able to independently transfer their learning:
To differentiate between figurative and literal language to gain meaning from text and real-life situations.	To understand the power of words and images to describe the many meanings of words and how these meanings change in context of the text.  Comprehend a variety of texts by tracing the main idea and theme in order to develop a summary of the text.	Effectively use content specific language, style, tone, and text structure to compose and adapt different writing for audiences and purposes.	Follow agreed-upon rules for discussions and carry out assigned roles.  Collaborate effectively as group members, who listen actively and respectfully, pose thoughtful questions, acknowledge the ideas of others, and contribute ideas to the group's goal.	Communicate effectively when writing or speaking by applying the conventions of language.  Use context clues to determine the meaning of figurative language in a variety of literary texts.
