\*The State Goal for 4 year graduation rate was 85% until 2016-2017. In 2016-2017, the 4 year graduate rate counted for 10% of the ESSA score and the 5 year rate counted for 5% of the ESSA score.

\*\*Every Student Succeeds Act (ESSA) was signed into law in December 2015. Among other shifts in accountability, it gave states a 5 year graduation option. This option was first implemented in the 2016-2017 school year. Due to this, we currently only have two years of 5 year graduation rate data.
