

June 12, 2020

Dear Little Rock Community:

Beginning Monday, June 15, 2020, normal operation hours will resume at Scott Field, with the practice of State and Health Department-recommended guidelines, including social distancing. The Little Rock School District made the decision to loosen restrictions as we move into Phase II of the State's response efforts to COVID-19 concerns, but we need your help.

We know how important Scott Field is to the community, particularly those who use it to exercise. As part of our community partnership, the District continued to allow limited access to the field even during the pandemic. As restrictions continue to ease, we should not lose sight of the importance to remain diligent in practicing good health habits, including social distancing. LRSD's athletic teams are also going to be reminded to adhere to the 6' distance guideline. Please also remember to help us keep the field and surrounding area clean by picking up any water bottles and trash.

If social distancing guidelines cannot be followed, the District may have to resume limited access to the field. Thank you again for your cooperation and support.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Poore".

Mike Poore
Superintendent of Schools
