EXECUTIVE SUMMARY
2018-19 Literacy Update/2019-20 Plan

Short Summary:
This executive summary is designed to give a brief overview of the plan related to LRSD’s efforts to impact literacy performance. We are sharing a broad view of several key components but do note that this plan is fluid and inclusive of many stakeholders. Although the plan is designed to capture tasks for the 2019-2020 school year, we are reviewing the tasks which have been accomplished and set the foundation for next year’s work. Lastly, the plan is inclusive of LRSD’s responses to the ADE audit for dyslexia.

The District has the vision that ALL students can and will be proficient in the area of reading and overall literacy. The District has embraced the ADE’s vision as articulated in R.I.S.E. (Reading Initiative for Student Excellence): R.I.S.E. Arkansas is a statewide reading campaign with three goals intended to (1) Sharpen the focus and strengthen instruction; (2) Create community collaboration, and (3) Build a culture of reading. The District is committed to providing a robust curriculum, support materials, and tiered coaching support that will improve reading instruction K-12. LRSD is appreciative to the Arkansas Department of Education and its support of our efforts in literacy.

Background:
LRSD created a District Plan of Support for the 2018-19 school year. Included in this plan of support is goal two, which articulated the District’s commitment to improving literacy instruction K-12. During this year, the District has moved several key components forward including continued to training of teachers in R.I.S.E., the selection process for K-5 core materials, the selection support materials to address the needs of our dyslexic student population, a restructuring of the literacy department for the 2019-2020 school year, the inclusion of the use of MAP assessments district-wide, and the implementation of professional learning communities.
