Standard School Choice

Definition

"sibling" means each of two (2) or more children having a common parent in common by blood, adoption, marriage, or foster care.

Transfers Into the District

Capacity Determination and Public Pronouncement

The Board of Directors will adopt a resolution containing the capacity standards for the District. The resolution will contain the acceptance determination criteria identified by academic program, class, grade level, and individual school. The school is not obligated to add any teachers, other staff, or classrooms to accommodate choice applications. The District may only deny a Standard School Choice application if the District has a lack of capacity by the District having reached ninety percent (90%) of the maximum student population in a program, class, grade level, or school building authorized by the Standards or other State/Federal law.

The District shall advertise in appropriate broadcast media and either print media or on the Internet to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall state the application deadline and the requirements and procedures for participation in the program. Such pronouncements shall be made in the spring, but in no case later than March 1.

Application Process

The student's parent shall submit a school choice application on a form approved by ADE to this district. The transfer application must be postmarked or hand delivered on or before May 1 of the year preceding the fall semester the applicant would begin school in the District. The District shall date and time stamp all applications as they are received in the District's central office. It is the District's responsibility to send a copy of the application that includes the date and time stamp to the student's resident district. Applications postmarked or hand delivered on or after May 2 will not be accepted. Statutorily, preference is required to be given to siblings of students who are already enrolled in the District. Therefore, siblings whose applications fit the capacity standards approved by the Board of Directors may be approved ahead of an otherwise qualified non-sibling applicant who submitted an earlier application as identified by the application's date and time stamp.

The approval of any application for a choice transfer into the District is potentially limited by the applicant's resident district's statutory limitation of losing no more than three percent (3%) of its past year's student enrollment due to Standard School Choice. As such, any District approval of a choice application prior to July 1 is provisional pending a determination that the resident district's three percent (3%) cap has not been reached.

The Superintendent will consider all properly submitted applications for School Choice. By July 1, the Superintendent shall notify the parent and the student's resident district, in writing, of the decision to accept or reject the application.

Accepted Applications

Applications which fit within the District's stated capacity standards shall be provisionally accepted, in writing, with the notification letter stating a reasonable timeline by which the student shall enroll in the District by taking the steps detailed in the letter, including submission of all required documents. If the student fails to enroll within the stated timeline, or if all necessary steps to complete the enrollment are not taken, or examination of the documentation indicates the applicant does not meet the District's stated capacity standards, the acceptance shall be null and void.

A student, whose application has been accepted and who has enrolled in the District, is eligible to continue enrollment until completing his/her secondary education. Continued enrollment is conditioned upon the student meeting applicable statutory and District policy requirements. Any student who has been accepted under choice and who either fails to initially enroll under the timelines and provisions provided in this policy or who chooses to return to his/her resident district voids the transfer and must reapply if, in the future, the student seeks another school choice transfer. A subsequent transfer application will be subject to the capacity standards applicable to the year in which the application is considered by the District.

A present or future sibling of a student who continues enrollment in this District may enroll in the District by submitting a Standard School Choice application. Applications of siblings of presently enrolled choice students are subject to the provisions of this policy including the capacity standards applicable to the year in which the sibling's application is considered by the District. A sibling who enrolls in the District through Standard School choice is eligible to remain in the District until completing his/her secondary education.

Students whose applications have been accepted and who have enrolled in the district shall not be discriminated against on the basis of gender, national origin, race, ethnicity, religion, or disability.

Rejected Applications

The District may reject an application for a transfer into the District under Standard School Choice due to a lack of capacity. However, the decision to accept or reject an application may not be based on the student's previous academic achievement, athletic or other extracurricular ability, English proficiency level, or previous disciplinary proceedings other than a current expulsion.

An application may be provisionally rejected if it is for an opening that was included in the District's capacity resolution, but was provisionally filled by an earlier applicant. If the provisionally approved applicant subsequently does not enroll in the District, the provisionally rejected applicant could be provisionally approved and would have to meet the acceptance requirements to be eligible to enroll in the district.

Rejection of applications shall be in writing and shall state the reason(s) for the rejection. A student whose application was rejected may request a hearing before the State Board of Education to

reconsider the application which must be done, in writing to the State Board within ten (10) days of receiving the rejection letter from the District.

Any applications that are denied due to the student's resident district reaching the three percent (3%) limitation cap shall be given priority for a choice transfer the following year in the order that the District received the original applications.

Transfers Out of the District

All Standard School Choice applications shall be granted unless the approval would cause the District to have a net enrollment loss (students transferring out minus those transferring in) of more than three percent (3%) of the average daily membership on October 15 of the immediately preceding year. By December 15 of each year, ADE shall determine and notify the District of the net number of allowable choice transfers. ~~For the purpose of determining the three percent (3%) cap, siblings are counted as one student, and students~~ Students are not counted for the purpose of determining the three percent (3%) cap if the student transfers from a school or district in:

- Academic Distress or classified as in need of Level 5 Intensive Support under A.C.A. § 6-18-227;
- Facilities Distress under A.C.A. § 6-21-812; or
- Foster Child School Choice under A.C.A. § 6-18-233.

If, prior to July 1, the District receives sufficient copies of requests from other districts for its students to transfer to other districts to trigger the three percent (3%) cap, it shall notify each district the District received Standard School Choice applications from that it has tentatively reached the limitation cap. The District will use confirmations of approved choice applications from receiving districts to make a final determination of which applications it received that exceeded the limitation cap and notify each district that was the recipient of an application to that effect.

When the last successful application requesting to transfer out of the District before the District's three percent (3%) cap was triggered belonged to an individual who was a member of a group of siblings who applied to transfer out of the District,, the District shall allow all members of the individual's sibling group to transfer out of the District even though these applications are beyond the District's transfer cap.

Facilities Distress School Choice Applications

There are a few exceptions from the provisions of the rest of this policy that govern choice transfers triggered by facilities distress. Any student attending a school district that has been identified as being in facilities distress may transfer under the provisions of this policy, but with the following four (4) differences.

- The receiving district cannot be in facilities distress;
- The transfer is only available for the duration of the time the student's resident district remains in distress;
- The student is not required to meet the June 1 application deadline; and
- The student's resident district is responsible for the cost of transporting the student to this District's school.

Opportunity School Choice

Transfers Into or Within the District

For the purposes of this section of the policy, a “lack of capacity” is defined as when the receiving school has reached the maximum student-to-teacher ratio allowed under federal or state law, the ADE Rules for the Standards of Accreditation, or other applicable rules. There is a lack of capacity if, as of the date of the application for Opportunity School Choice, ninety-five percent (95%) or more of the seats at the grade level at the nonresident school are filled.

Unless there is a lack of capacity at the District’s school or the transfer conflicts with the provisions of a federal desegregation order applicable to the District, a student who is enrolled in or assigned to a school classified by the ADE to be in academic distress is eligible to transfer to the school closest to the student’s legal residence that is not in academic distress. The student’s parent or guardian, or the student if over the age of eighteen (18), must successfully complete the necessary application process by July 30 preceding the initial year of desired enrollment.

Within thirty (30) days from receipt of an application from a student seeking admission under this section of the policy, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, whether the Opportunity School Choice application has been accepted or rejected. The notification shall be sent via First-Class Mail to the address on the application.

If the application is accepted, the notification letter shall state the deadline by which the student must enroll in the receiving school or the transfer will be null and void.

If the District rejects the application, the District shall state in the notification letter the specific reasons for the rejection. A parent or guardian, or the student if the student is over eighteen (18) years of age, may appeal the District’s decision to deny the application to the State Board of Education. The appeal must be in writing to the State Board of Education via certified mail, return receipt requested, no later than ten (10) calendar days, excluding weekends and legal holidays, after the notice of rejection was received from the District.

A student’s enrollment under Opportunity School Choice is irrevocable for the duration of the school year and is renewable until the student completes high school or is beyond the legal age of enrollment. This provision for continuing eligibility under Opportunity Choice does not negate the student's right to

apply for transfer to a district other than the student's assigned school or resident district under the Standard School Choice provisions of this policy.

The District may, but is not obligated to provide transportation to and from the transferring district.

Transfers out of, or within, the District

If a District school or the District has been classified by the ADE as being in academic distress the District shall timely notify the parent, guardian, or student, if the student is over eighteen (18) years of age, as soon as practicable after the academic distress designation is made of all options available under Opportunity Choice. The District shall offer the parent or guardian, or the student if the student is over eighteen (18) years of age, an opportunity to enroll the student in any public school or school district that has not been classified by the ADE as a public school or school district in academic distress.

Additionally, the District shall request public service announcements to be made over the broadcast media and in the print media at such times and in such a manner as to inform parents or guardians of students in adjoining districts of the availability of the program, the application deadline, and the requirements and procedure for nonresident students to participate in the program.¹⁵

4.27—STUDENT SEXUAL HARASSMENT

The Little Rock School District is committed to providing an academic environment that treats all students with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.

The District believes the best policy to create an educational environment free from sexual harassment is prevention; therefore, the District shall provide informational materials and training to students, parents/legal guardians/other responsible adults, and employees on sexual harassment. The informational materials and training on sexual harassment shall be age appropriate and, when necessary, provided in a language other than English or in an accessible format. The informational materials and training shall include, but are not limited to: the nature of sexual harassment; the District's written grievance procedures for complaints of sexual harassment; that the district does not tolerate sexual harassment; that students can report inappropriate behavior of a sexual nature without fear of adverse consequences; the redress that is available to the victim of sexual harassment; and the potential discipline for perpetrating sexual harassment.

"Sexual harassment" means conduct that is:

1. Of a sexual nature, including, but not limited to:
 - a. Sexual advances;

- b. Requests for sexual favors;
 - c. Sexual violence; or
 - d. Other personally offensive verbal, visual, or physical conduct of a sexual nature;
- 2. Unwelcome; and
 - 3. denies or limits a student's ability to participate in or benefit from any of the District's educational programs or activities through any or all of the following methods:
 - a. Submission to the conduct is made, either explicitly or implicitly, a term or condition of an individual's education;
 - b. Submission to, or rejection of, such conduct by an individual is used as the basis for academic decisions affecting that individual; and/or
 - c. Such conduct has the purpose or effect of substantially interfering with an individual's academic performance or creates an intimidating, hostile, or offensive academic environment.

The terms "intimidating," "hostile," and "offensive" include conduct of a sexual nature that has the effect of humiliation or embarrassment and is sufficiently severe, persistent, or pervasive that it limits the student's ability to participate in, or benefit from, an educational program or activity.

Within the educational environment, sexual harassment is prohibited between any of the following: students; employees and students; and non-employees and students.

Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all of the surrounding circumstances and may occur regardless of the sex(es) of the individuals involved. Depending upon such circumstances, examples of sexual harassment include, but are not limited to:

- Making sexual propositions or pressuring for sexual activities;
- Unwelcome touching;
- Writing graffiti of a sexual nature;
- Displaying or distributing sexually explicit drawings, pictures, or written materials;
- Performing sexual gestures or touching oneself sexually in front of others;
- Telling sexual or crude jokes;
- Spreading rumors related to a person's alleged sexual activities;
- Discussions of sexual experiences;
- Rating other students as to sexual activity or performance;
- Circulating or showing e-mails or Web sites of a sexual nature;
- Intimidation by words, actions, insults, or name calling; and
- Teasing or name-calling related to sexual characteristics or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of whether or not the student self-identifies as homosexual or transgender.

Students who believe they have been subjected to sexual harassment, or the parent/legal guardian/other responsible adult of a student who believes their student has been subjected to sexual harassment, are encouraged to file a complaint by contacting a counselor, teacher, Title IX coordinator, or administrator who will provide assistance on the complaint process. Under no circumstances shall a student be required to first report allegations of sexual harassment to a school contact person if that person is the individual who is accused of the harassment.

Complaints will be treated in a confidential manner to the extent possible. Limited disclosure may be provided to: individuals who are responsible for handling the District's investigation to the extent necessary to complete a thorough investigation; the extent necessary to submit a report to the child maltreatment hotline; the Professional Licensure Standards Board for complaints alleging sexual harassment by an employee towards a student; or the extent necessary to provide the individual accused in the complaint due process during the investigation and disciplinary processes. Individuals who file a complaint have the right to request that the individual accused of sexual harassment not be informed of the name of the accuser; however, individuals should be aware that making such a request may substantially limit the District's ability to investigate the complaint and may make it impossible for the District to discipline the accused.

Students, or the parents/legal guardians/ other responsible adult of a student, who file a complaint of sexual harassment shall not be subjected to retaliation or reprisal in any form, including threats, intimidation, coercion, or discrimination. The District shall take steps to prevent retaliation and shall take immediate action if any form of retaliation occurs regardless of whether the retaliatory acts are by District officials, students, or third parties.

Following the completion of an investigation of a complaint, the District will inform the parents/legal guardian/other responsible adult of the student, or the student if over the age of eighteen (18), who filed the complaint:

- The final determination of the investigation;
- Remedies the District will make available to the student; and
- The sanctions, if any, imposed on the alleged harasser relevant to the student.

Following the completion of an investigation of a complaint, the District will inform the parents/legal guardian/other responsible adult of the student, or the student if over the age of eighteen (18), who was accused of sexual harassment in the complaint:

- The final determination of the investigation; and
- The sanctions, if any, the District intends to impose on the student.

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment. Following an investigation, any student who is found by the evidence to more likely

than not have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion.

Students who knowingly fabricate allegations of sexual harassment shall be subject to disciplinary action up to and including expulsion.

Individuals who withhold information, purposely provide inaccurate facts, or otherwise hinder an investigation of sexual harassment shall be subject to disciplinary action up to and including expulsion.

4.35—STUDENT MEDICATIONS

Prior to the administration of any medication, including any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, to any student under the age of eighteen (18), written parental consent is required. The consent form shall include authorization to administer the medication and relieve the Board and its employees of civil liability for damages or injuries resulting from the administration of medication to students in accordance with this policy. All signed medication consent forms are to be maintained by the school nurse.

Unless authorized to self-administer, students are not allowed to carry any medications, including over-the-counter medications (OTC) or any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, while at school. The parent or legal guardian shall bring the student's medication to the school nurse. The student may bring the medication if accompanied by a written authorization from the parent or legal guardian. When medications are brought to the school nurse, the nurse shall document, in the presence of the parent, the quantity of the medication(s). If the medications are brought by a student, the school nurse shall ask another school

employee to verify, in the presence of the student the quantity of the medication(s). Each person present shall sign a form verifying the quantity of the medication(s).

Medications, including those for self-administration, must be in the original container and be properly labeled with the student's name, the ordering provider's name, the name of the medication, the dosage, frequency, and instructions for the administration of the medication (including times). Additional information accompanying the medication shall state the purpose for the medication, its possible side effects, and any other pertinent instructions (such as special storage requirements) or warnings. Schedule II medications that are permitted by this policy to be brought to school shall be stored in a double locked cabinet.

Students with an individualized health plan (IHP) may be given (OTC) medications to the extent giving such medications are included in the student's IHP.

Students taking Schedule II medications methylphenidate (e.g. Ritalin or closely related medications as determined by the school nurse), dextroamphetamine (Dexedrine), and amphetamine sulfate (e.g. Adderall or closely related medications as determined by the school nurse) shall be allowed to attend school.

Students taking Schedule II medications not included in the previous sentence shall be allowed to bring them to school under the provisions of this policy and shall be permitted to attend and participate in classes **only** to the extent the student's doctor has specifically authorized such attendance and participation. A doctor's prescription for a student's Schedule II medication is **not** an authorization. Attendance authorization shall specifically state the degree and potential danger of physical exertion the student is permitted to undertake in the student's classes and extracurricular activities. Without a doctor's written authorization, a student taking Schedule II medications, other than those specifically authorized in this policy, shall **not** be eligible to attend classes, but shall be eligible for homebound instruction if provided for in their IEP or 504 plans.

The district's supervising registered nurse shall be responsible for creating both on campus and off campus procedures for administering medications.

Students who have written permission from their parent or guardian and a licensed health care practitioner on file with the District may:

- 1) Self-administer either a rescue inhaler or auto-injectable epinephrine;
- 2) Perform his/her own blood glucose checks;
- 3) Administer insulin through the insulin delivery system the student uses;

- 4) Treat the student's own hypoglycemia and hyperglycemia; or
- 5) Possess on his or her person:
 - a) A rescue inhaler or auto-injectable epinephrine; or
 - b) the necessary supplies and equipment to perform his/her own diabetes monitoring and treatment functions.

Students who have a current consent form on file shall be allowed to carry and self-administer such medication while:

- In school;
- At an on-site school sponsored activity;
- While traveling to or from school; or
- At an off-site school sponsored activity.

A student is prohibited from sharing, transferring, or in any way diverting his/her medications to any other person. The fact that a student with a completed consent form on file is allowed to carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, or combination does not require him/her to have such on his/her person. The parent or guardian of a student who qualifies under this policy to self-carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, or any combination on his/her person shall provide the school with the appropriate medication, which shall be immediately available to the student in an emergency.

Students may be administered Glucagon, insulin, or both in emergency situations by the school nurse or, in the absence of the school nurse, a trained volunteer school employee designated as a care provider, provided the student has:

1. an IHP that provides for the administration of Glucagon, insulin, or both in emergency situations; and
2. a current, valid consent form on file from their parent or guardian.

When the nurse is unavailable, the trained volunteer school employee who is responsible for a student shall be released from other duties during:

- A. The time scheduled for a dose of insulin in the student's IHP; and
- B. Glucagon or non-scheduled insulin administration once other staff have relieved him/her from other duties until a parent, guardian, other responsible adult, or medical personnel has arrived.

A student shall have access to a private area to perform diabetes monitoring and treatment functions as outlined in the student's IHP.

Emergency Administration of Epinephrine

The school nurse or other school employees designated by the school nurse as a care provider who have been trained and certified by a licensed physician may administer an epinephrine auto-injector in emergency situations to students who have an IHP developed under Section 504 of the Rehabilitation Act of 1973 which provides for the administration of an epinephrine auto-injector in emergency situations.

The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee certified to administer auto-injector epinephrine to the student when the employee believes the student is having a life-threatening anaphylactic reaction.

Students with an order from and a licensed health care provider to self-administer auto-injectable epinephrine and who have written permission from their parent or guardian shall provide the school nurse an epinephrine auto-injector. This epinephrine will be used in the event the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes the student is having a life-threatening anaphylactic reaction and the student is either not self-carrying his/her /epinephrine auto-injector or the nurse is unable to locate it.

The school nurse for each District school shall keep epinephrine auto-injectors on hand that are suitable for the students the school serves. The school nurse or other school employee designated by the school nurse as a care provider who has been trained and certified by a licensed physician may administer auto-injector epinephrine to those students who the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes is having a life-threatening anaphylactic reaction.

The school nurse for each District school shall keep anti-opioid injectors on hand. The school nurse, other school employee, volunteer, or student may administer anti-opioid in accordance with the District's procedures to a student who the school nurse, or other observer, in good faith believes is having an opioid overdose.

The school shall not keep outdated medications or any medications past the end of the school year. Parents shall be notified ten (10) days in advance of the school's intention to dispose of any medication. Medications not picked up by the parents or legal guardians within the ten (10) day period shall be disposed of by the school nurse in accordance with current law and regulations.

4.43—BULLYING

Respect for the dignity of others is a cornerstone of civil society. Bullying creates an atmosphere of fear and intimidation, robs a person of his/her dignity, detracts from the safe environment necessary to promote student learning, and will not be tolerated by the Board of Directors. Students who bully another person shall be held accountable for their actions whether they occur on school equipment or property; off school property at a school sponsored or approved function, activity, or event; going to or from school or a school activity in a school vehicle or school bus; or at designated school bus stops.

A school principal, or designee, who receives a credible report or complaint of bullying shall promptly investigate the complaint or report and make a record of the investigation and any action taken as a result of the investigation.

Definitions:

“Attribute” means an actual or perceived personal characteristic including without limitation race, color, religion, ancestry, national origin, socioeconomic status, academic status, disability, gender, gender identity, physical appearance, health condition, or sexual orientation;

“Bullying” means the intentional harassment, intimidation, humiliation, ridicule, defamation, or threat or incitement of violence by a student against another student or public school employee by a written, verbal, electronic, or physical act that may address an attribute of the other student, public school employee, or person with whom the other student or public school employee is associated and that causes or creates actual or reasonably foreseeable:

- Physical harm to a public school employee or student or damage to the public school employee's or student's property;
- Substantial interference with a student's education or with a public school employee's role in education;
- A hostile educational environment for one (1) or more students or public school employees due to the severity, persistence, or pervasiveness of the act; or
- Substantial disruption of the orderly operation of the school or educational environment;

“Electronic act” means without limitation a communication or image transmitted by means of an electronic device, including without limitation a telephone, wireless phone or other wireless communications device, computer, or pager that results in the substantial disruption of the orderly operation of the school or educational environment.

Electronic acts of bullying are prohibited whether or not the electronic act originated on school property or with school equipment, if the electronic act is directed specifically at students or school personnel and maliciously intended for the purpose of disrupting school, and has a high likelihood of succeeding in that purpose;

4.45—SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS FOR THE CLASSES OF 2018, 2019, AND 2020

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are eighteen (18) years of age or older, sign a *Smart Core Waiver Form* to not participate. While Smart Core is the default option, ~~both a Smart Core *Informed Consent Form*~~

Information Sheet and a *Smart Core Waiver Form*¹ will be sent home with students prior to their enrolling in seventh (7th) grade, or when a seventh (7th) through twelfth (12th) grade student enrolls in the district for the first time and there is not a signed waiver form in the student's permanent record. ~~Parents must sign one of the forms and return it to the school so it can be placed in the students' permanent record.~~¹ This policy is to be included in student handbooks for grades six (6) through twelve (12) and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the requirements of their IEP (when applicable) to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the ~~time they are required~~ deadline for them to sign and return the ~~consent forms~~ waiver form.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum **providing** they would be able to complete the required course of study by the end of their senior year. Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents ~~at least every other year~~ as part of the annual school district support plan development process to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This may be accomplished through any or all of the following means:

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter;
- Discussions held by the school's counselors with students and their parents; and/or
- Distribution of a newsletter(s) to parents or guardians of the district's students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children for all students who meet the definition of “eligible child” in Policy 4.2 ENTRANCE REQUIREMENTS.

GRADUATION REQUIREMENTS

The number of units students must earn to be eligible for high school graduation is to be earned from the categories listed below. A minimum of twenty-two (22) units is required for graduation for a student participating in either the Smart Core or Core curriculum. There are some distinctions made between Smart Core units and Graduation units. Not all units earned toward graduation necessarily apply to Smart Core requirements.

4.47— POSSESSION AND USE OF CELL PHONES AND OTHER ELECTRONIC DEVICES

Students are responsible for conducting themselves in a manner that respects the rights of others. Possession and use of any electronic device, whether district or student owned, that interferes with a positive, orderly classroom environment does not respect the rights of others and is expressly forbidden.

To protect the security of statewide assessments, no electronic device, as defined in this policy, shall be accessible by a student at any time during assessment administration unless specifically permitted by a student's individualized education program (IEP) or individual health plan this means that when a student is taking an AESAA assessment, the student shall not have his/her electronic device in his/her possession. Any student violating this provision shall be subject to this policy's disciplinary provisions.

As used in this policy, "electronic devices" means anything that can be used to transmit or capture images, sound, or data.

Misuse of electronic devices includes, but is not limited to:

1. Using electronic devices during class time in any manner other than specifically permitted by the classroom instructor;
2. Permitting any audible sound to come from the device when not being used for reason #1 above;
3. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, or wrongfully obtaining test copies or scores;
4. Using the device to record audio or video or to take photographs in areas where a general expectation of personal privacy exists, including but not limited to locker rooms ~~or~~ and bathrooms;
5. Creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person.

Use of an electronic device is permitted to the extent it is approved in a student's IEP or it is needed in an emergency that threatens the safety of students, staff, or other individuals.

Before and after normal school hours, possession of electronic devices is permitted on the school campus. The use of such devices at school sponsored functions outside the regular school day is permitted to the extent and within the limitations allowed by the event or activity the student is attending.

A parent shall obtain approval from the student's building principal before operating a student-tracking safety device at school or at a school-sponsored event if the device has recording or listen-in capability. The District requires the device's recording and listen-in technology to be disabled while the device is on the campus or at the school-sponsored event because of student privacy concerns. The District prohibits unauthorized audio or visual recordings or transmission of audio or images of other students. The student's parent shall agree in writing to the requirement for the device's recording and listening-in technology to be disabled and that the District may prohibit future use of the device on campus or at a school-sponsored activity if it is determined that the device's recording or listening-in capabilities were used in violation of this policy before the student safety tracking device may be on campus or at a school-sponsored event.

The student and/or the student's parents or guardians expressly assume any risk associated with students owning or possessing electronic devices. Students misusing electronic devices shall have them confiscated. Confiscated devices may be picked up at the school's administration office by the student's parents or guardians. Students have no right of privacy as to the content contained on any electronic devices that have been confiscated. A search of a confiscated device shall meet the reasonable individualized suspicion requirements of Policy 4.32—SEARCH, SEIZURE, AND INTERROGATIONS.

Students who use school issued cell phones and/or computers for non-school purposes, except as permitted by the district's Internet/computer use policy, shall be subject to discipline, up to and including suspension or expulsion. Students are forbidden from using school issued cell phones while driving any vehicle at any time. Violation may result in disciplinary action up to and including expulsion.
