She provided handouts regarding her concerns.

IV. REPORTS AND COMMUNICATIONS

A. Remarks from Board Members

Ms. Shephard commented on Mr. Walker’s concerns related to feedback from the district and agreed the Board and administration needs to do a better job of responding to concerns brought forth in Board meetings. She acknowledged Ms. Koehler’s concern with students’ behaviors, but stated she would not condone criminalizing students for their language or minor misbehavior. She had attended the spring play at Parkview, and thanked Mr. Booth and the students for their success.

Mr. Carreiro announced that he had spent much of the day at the Metroplex where students participating in ‘Artistry in the Rock’ were present. He commended the district staff members who had worked to coordinate the efforts this year and he reminded listeners to attend the Friday evening event where they will have an opportunity to purchase student artwork and support the LRSD arts scholarship fund. He also stated he had some ideas for providing follow up by the Board and administrators when the citizens comments require a response. He suggested a discussion at the agenda meeting to determine how best to ensure follow up.

Mr. Mc Adoo stated we should focus on “living language” and speaking life into situations by working together to ensure our children graduate from high school, and encourage each other in the present to prepare for the future. Regarding concerns expressed before the Board, he suggested a 24-hour time to reply to those people who bring questions and concerns.

Ms. Curry thanked the other board members for their comments and “dittoed” their remarks. She thanked the speakers who brought their concerns, and she agreed the board should have a policy for responding to questions and concerns. She thanked the custodial group who were present.
Ms. Curry also thanked Dr. Andre Guerrero for his statement and concern for the Latinos in the district. She asked the audience to make a difference by being involved in the lives of the children in the District.

Ms. Johnson expressed appreciation for the comments made. She asked listeners to help by building relationships and removing barriers that hinder student success. It is important to find what will work to reach the students where they are, and access each individual situation to find what will work.

B. Legal Update

Mr. Heller spoke briefly regarding the pending decision to be made by the Arkansas Department of Education regarding Quest Charter School’s request to relocate the school. Quest purchased a building for $3.9 million prior to receiving approval for the move. There were major concerns regarding incorrect statements made to the charter authorizing panel and conflicting information in their application.

Pulaski County will report periodically to the State Board of Education, and there will be additional review of the formation of a school district in Jacksonville.
