B. Strategic Planning: Report from the Commission

Senator Jim Argue and Terrance Bolden, co-chairmen of the Strategic Planning Commission, provided brief remarks regarding the Strategic Planning process and progress. The Commission has met several times and has developed a “game plan” to move the district toward higher levels of student achievement. Senator Argue commended Dr. Watson for recruiting a highly qualified, talented, and committed group of citizens to serve on the Commission.
A scope of work and proposal for services was requested from Picus & Associates (Picus, Odden & Cohen). These consultants will conduct a fact-finding session within the district and hold a series of five meetings in an effort to develop a realistic plan for the district. They will make a conscientious effort to build community support for the plan as it is developed. Two budget alternatives were provided for the board’s review. One was in the amount of $145,000, and the more extensive plan would be $200,000. The Commission requested approval of the more comprehensive plan, estimated at $200,000, expressing concerns about limiting the consultants’ ability to provide the widest range of services proposed.

Ms. Fox moved to suspend the rules to reorder the agenda in order to take action on the strategic planning proposal at this point in the agenda. Mr. Armstrong seconded the motion and it **carried unanimously**. Action was taken at this time, but will be reported as ordered in the agenda.

**C. Remarks from Citizens**

Cornelius Roberts, teacher at Parkview Magnet High School, congratulated the board and superintendent on a good school year. Mr. Roberts expressed his opinions on a variety of topics including use of stimulus funds, the student rights and responsibilities handbook in general, and specifically the short-term suspension policy. His concerns were related to allowing students to make up work when they return to school instead of being required to complete the work while they are out of school on suspension.

**D. Little Rock PTA Council**

Henri Smothers spoke on behalf of the PTA Council. Ms. Smothers serves as first vice president, and reported that the Council officers were using this time over the summer to plan for the upcoming school year.

**E. Little Rock Classroom Teachers Association**

Michael Coleman addressed the board on behalf of the CTA. He reported that Ms. Kohler was attending the NEA meeting in San Diego as a delegate from Arkansas. He commented on the potential for change provided by the ARRA / stimulus funds, and expressed hope that the use of these funds will result in permanent improvement to America’s school system and overall academic achievement. He closed by commending Dr. Watson for including principals and teachers in the process of setting the district’s priorities for spending the stimulus funds.

**IV. REPORTS AND COMMUNICATIONS**

**A. Remarks from Board Members**

Dr. Daugherty commented on a letter received by board members from City Manager Bruce Moore supporting the creation of a district truancy board. Mr. Carreiro congratulated Hall High student Roosevelt Harris on his appointment as governor of Boys State. He also commended the students and faculty at Central High School on being listed on the Newsweek poll of best high schools in America.
Mr. Kurrus encouraged the public to drive by the construction site of the new Roberts Elementary School on Highway 10 and Taylor Loop Road. He encouraged administrators to begin planning for a middle school, and he asked for consideration to be given to spending stimulus funds on “bricks and mortar” instead of on personnel costs. He reminded the board that the district faces tremendous financial challenges, especially as the desegregation funding phases out.

Ms. Curry reported that she had attended two fifth grade graduations, Watson and Baseline Elementary. She encouraged students to participate in remedial programs and to continue learning over the summer.

B. Legal Update

No report.

C. Middle School Advisory Task Force Committee Update

Short- and long-term priorities were submitted to the administration by the Middle School Advisory Task Force. Dr. Watson reported that the recommendations would be reviewed by the administration and that those with no budget implications would be implemented over the course of the next school year. Mr. Carreiro served as the board’s representative on the Middle School Task Force and reported that they envisioned an ongoing process for improving education at the middle level. He reported that the recommendations brought forth at this time did not include anything that would require a policy change, and that the committee would recommend a process to review progress along the way. Additional recommendations will be made in the future and submitted for the board’s review.

D. Budget Update

Mr. Bailey briefly reported that there was little change in the status of district’s revenues and expenditures. He stated that expenditures are remaining fairly stable due to conservative steps in hiring. He reported that additional information is being developed and that he expected he would be prepared to conduct a budget review in July.

VI. ADMINISTRATION

A. Strategic Planning: Report & Recommendation for Consultant’s Contract

In February 2009 the board approved the formation of a strategic planning commission to collaborate on the development of a new plan for the district. The Commission includes representatives from the LRSD Board, the city of Little Rock, the faith-based community, institutions of higher education, the legislature, the Hispanic community, Joshua Intervenors, the PTA Council and other parent representatives.

Action was taken earlier in the agenda after hearing a brief report from the Commission’s co-chairmen Senator Jim Argue and Mr. Terence Bolden. Ms. Fox moved to approve the recommendation to contract with Picus & Associates for the development of a comprehensive strategic plan. Mr. Kurrus seconded the motion and it carried unanimously.

Ms. Curry commended the members of the commission for volunteering to serve in this effort, especially Mr. Kurrus for serving as the board’s representative. Mr. Kurrus also thanked the other members of the commission and stated that he believed that Picus & Odden, nationally recognized school reform consultants, would provide the organizational skill and experience to make long-term effective change in the LRSD. He noted that this would be a perfect use of our stimulus funds by making a one-time expenditure for long-term improvements in the way business is done in the LRSD.
VII. EDUCATIONAL SERVICES

A. 2009-2010 Evaluation Agenda

Dr. DeJarnette provided a brief review of the information provided in the board’s agenda and responded to questions regarding the evaluation plan for the 2009-10 school year. Ms. Fox asked for additional information including a comprehensive list of programs, expenditures and budgets and requested that those items be tied to the evaluation process. She asked that the progress of the programs be tracked to see if they are working as intended to meet the overall goals of the district. She asked that a list be developed showing which schools have which program in order to assess effectiveness and determine which programs work to improve achievement.

Mr. Kurrus also asked for more detailed reporting and asked that the administration “narrow the scope” and refine the programs that work in order to eliminate the programs that don’t meet the needs of our students. He specifically focused his comments on Target Teach and the way curriculum is aligned to standards in order to achieve higher achievement test scores. He asked how achievement is measured comparing Target Teach to the strategies already in place in the classroom. “What does Target Teach do for us that we cannot do for ourselves?”

Mr. Carreiro agreed with previous comments and stated that test data should be included with the evaluations, but he acknowledged the lag in receipt of test data when program development and evaluation is done. He asked Dr. DeJarnette to include a measure for effectiveness of professional development and whether that can be targeted to special needs for training teachers. He also asked that the cost of professional development be attached to the programs evaluated.

Mr. Carreiro moved to approve the evaluation agenda as presented. Dr. Daugherty seconded the motion and it carried unanimously.

VIII. HUMAN RESOURCES

A. Position in Financial Services (request to table)

A proposal to create a new position in the Financial Services department was included in the board’s agenda. This position would be funded with ARRA stimulus funds and would be for the term of eligibility for those funds. Ms. Fox made a motion to create a new position in financial services; Dr. Daugherty seconded. No vote was taken on the motion.

The administration asked that action be tabled at this time so that creation of this position could be included with the full proposal of stimulus fund requests. Mr. Kurrus moved to table action as requested by the administration; Dr. Daugherty seconded the motion and it carried unanimously.

B. Personnel Changes

Routine personnel matters were printed in the board’s agenda. Dr. Daugherty moved to approve the recommendations as presented. Mr. Carreiro seconded the motion and it carried unanimously.

Mr. Kurrus moved to approve; Dr. Daugherty seconded the motion and it carried unanimously.

Ms. Dowdy provides support for the information services and technology departments in the areas of maintenance, e-rate funding, new school technology initiatives and administrative support and development. Mr. Kurrus noted for the record that he had previously voted in opposition to funding for this support position, with his preference being to assign these responsibilities to someone within the district’s technology department.

Ms. Fox moved to approve the two year extension. Dr. Daugherty seconded the motion and it carried 4-2 with Mr. Kurrus and Mr. Armstrong voting no.

C. Issuance & Delivery of Bonds

At the February 26, 2009 meeting, the board voted to authorize the issuance of second lien bonds in the amount of $21,390,000 to fund the completion of the new Don Roberts Elementary School and other capital projects across the district. The bond sale was held on June 23, and a resolution awarding the sale of the bonds was presented for the board’s adoption.

Ms. Fox moved to approve the resolution authorizing the issuance and delivery of the bonds. Mr. Carreiro seconded the motion and it carried 5-0-1. Dr. Daugherty exited the room during the vote citing a conflict of interest. His vote was recorded as an abstention.

D. Financial Audit Services

As directed by Board Policy DIE, Audits / Financial Monitoring, the audit committee met to review proposals for conducting the district’s annual financial audit.
