*The Little Rock School District has selected a new and user friendly Learning Management System (Schoology) for delivery of instruction for the entire district. This system will allow for teachers to deliver instruction virtually to students while also delivering instruction in the classroom to students simultaneously. Teachers will also be able to record lessons so students may access the lesson at another time should they not be able to be online or in the classroom for the lesson. All classes, including core, magnet, and electives, will be taught so students will have a full schedule whether attending in person or virtually. Students will be given login information to Schoology by their teachers.*
